

HNA Executive Committee Meeting 2.14.19

The HNA Executive Committee met on Thursday, February 14, 2019 at 2:00 pm at the Treasurer's business office -- 3907 Red River Street.

The first item on the agenda was to nominate Mary Sanger to be Secretary until new officers are elected in January, 2019. The vote by the recently elected officers (Mark Harkrider, Bruce Fairchild, and Ann Tucker) was unanimous in favor. The following items were discussed:

1. Red River realignment. On behalf of HNA, the Executive Committee agreed to send an email, which will outline concerns residents have raised concerning this "realignment," to Mayor, City Council and City Manager. The letter will be posted on HNA website.
2. Crime. Due to the number of cars being broken into and rifled at night, and a general uneasiness expressed by residents, the Executive Committee will talk with our sector police and ask for more routine patrols, as well as urge residents to report every criminal incident to 911.
3. There have been two complaints about businesses operating in residential homes, which do not meet the requirements of a home business under the Development Code. Because Code Enforcement is complaint driven, the Executive Committee will advise residents on the HNA website's special announcements to complain directly to the City's Code Enforcement Department. The HNA president will also make complaints.

4. Residents have expressed concerns about the proposed projects and their funding for the Hancock Golf Course under the Concordia Resolution which was passed in 2007. In response, this issue will be a subject at the next regularly scheduled HNA meeting. In the meantime, the Executive Committee has requested the HNA Park's committee, Parks Foundation, and Parks Department not to take any action on proposed projects until the HNA membership has voted on them at a regularly scheduled meeting.

Submitted by Executive Committee on 2.25.19
